Re: Formasit Chijoh's internship with Outreachy.

To Whom It May Concern:

This letter confirms that Formasit Chijoh participated in a remote internship, as part of Outreachy. Outreachy's goal is to increase diversity in Free and Open Source Software (FOSS). Outreachy is administered by Software Freedom Conservancy, a 501(c)(3) United States non-profit, which helps promote, improve, develop, and defend FOSS projects.

Formasit Chijoh worked with Outreachy mentors in the Wikimedia Foundation community on the "WikiEducation Dashboard: Test Suite" project. The internship took place from December 2024 to March 2025. Outreachy interns work 30 hours per week for 13 weeks. Outreachy interns are paid a \$7,000 USD stipend (total).

Formasit Chijoh has successfully completed the internship.

Please reach out to the Outreachy program organizer, <organizers@sfconservancy.org>, if you have further questions.

Sincerely,

Karen Sandler
Executive Director
Software Freedom Conservancy.
